Hospital administrator

THE DIRECTOR FRIEND OF MINGA

REPORT FOR FUND RECEIVED FOR HOSPITAL DRUGS: Euro 5000 Us Dollar 5541.50 equivalent to 66775.01. Zmk rate 12.05

Reference to the above subject:

Greetings from Minga mission hospital and management .I hope and believe that with the Grace of God almighty you are doing fine. We are glad to thank you again and again for the support received from your organization .It was really the beneficial to our staff, management and all the community surrounding us at Minga catchment area. For the event was done to show the thanks from the community and the staff on meeting they thank you a lot. We as management we don't have words to thank you the way you could like but we know God is the one can grant you and reward you abundantly.

Below is the activity narrative report on fund which we received. We are very gladly that you are being our father and mother who care for Minga Mission Hospital. We thought you it will be very had to run this hospital because we don't have any donor who can think the way you think especially on the area of equipment and drugs always you have being helpfully for Minga when we are in-need

Thank you so much May God blesses you abundantly.

Yours in prayer.

Yours faithfully

Sr Asperanza Massawe
Hospital administrator

The first photo shows the nurse helping the child who was born on our hospital but after 3 years the condition started changing slowly .
 The second shows the triplets whom they were born on our hospital and all alone we are being supported them so that they can grow well. Especially on milk supplement
 Third shows some of the drugs and the officer who are waiting for patient receiving medication after screen.

However we visited community and some village to follow up malaria on children after buy some enough medicine we went to the community to protect and giving drugs to reduce death especially on children at minga area .

Community listen health talk on how they can use drugs
 Staff projection on drugs use and protection on donor support.
 Drugs on shelf and some on boxes before enter in the store .
 The pharmacist counting the drugs before putting on computer and shelves .

Pharmacy personal put the drugs in the shelves and in the computer.

1. Pregnant mothers benefited for the chitenge to cover their baby after born.
2. The OPD health talk during Monday after buying drugs.
